CATALOGUE

Your Best Lighter

Flameclub designs and manufactures a complete selection of exclusively designed lighter products for any lifestyle.

Flameclub offers lighters for the gift, housewares, outdoor, promotional, and tobacco markets.

Flameclub takes pride in providing excellent customer service and absolutely high quality on all our products.

Flameclub invites you to Enjoy Your Best Lighter!

### SOFTFLAME

*SOFTFLAME* or also called regular flame is the most common of all known flame types. It is generated by a piezo or flint wheel ignition. The optimum height of a softflame is approx. 3cm.

### COLORFUL TURBOFLAME

*TURBOFLAME* The windproof burning behaviour is the mark of distinction of turbo flames. Above a nozzle the lighter gas is mixed with air, swirled inside the diffuser and ignited by an electrode. The mixture burns like a Bunsen burner with great heat, but without a visible flame. In general the same technique as used for the classic turbo flame. The only difference is the special magnesium wire that creates the interesting colorful flame.

### JETFLAME

*JETFLAME* is probably the hottest flame available at present. Due to the fact that gas and air are swirled above a nozzle through a special burner type, the sharp and pointed flame is created. And such JETFLAME is normally use for cigars or other professional ways.

To pass the *HEAT TEST* lighters have to withstand 4 hours in a special oven at 65°C. Thereby they may not get any splits or Leaks of gas.

The *DROP TEST* indicates the ability of the lighter to withstand safely a drop from 1.5 m in a group of concrete without splitting.

According to the outside temperature the *FLAME HEIGHT* of lighters varies in use. The maximum flame height may not exceed 10 cm.

A special patented friction wheel allows a child resistant ignition with flint lighters for protecting the safety of user.

*FLAMECLUB* Lighters are produced in TÜV monitored factories. All the production must pass stringent certified and integrated quality management.

A higher pressure on the push button ensures a child-resistant ignition with electronic lighters for protecting the safety of user.

All **FLAMECLUB** packs carry the **ISO9994** Norm required warning and safety pictograms clearly printed.

The **ISO9994** is a world-wide valid norm which states the demands within the general product safety for lighters. It consists basically on three test methods (**HEAT TEST, DROP TEST, FLAME HEIGHT**) that a lighter has to pass before being placed on the market. **ISO9994** certification can be provided upon request.

All **FLAMECLUB** Cigarette Lighters sold within the EU are conform with child - resistant standard **EN 13869**.

## UTILITY MicroTorch

Dear Clients,

Thank you for looking the high quality Utility Burner by FLAMECLUB. It's a wise choice and one that will prove the test of time as a durable top quality product. To make sure you get optimum results and long-lasting service from our Utility Burner, we will provide some important information plus tips for optimal use and aftercare, as well as safety guidelines.

#### Outstanding product features at a glance:

The Utility Burner from FLAMECLUB is a reliable and durable flame appliance for producing caramel from all types of sugar on desserts such as Crème Brûlée, Crema Catalana or even ice cream (which maintains its cold temperature under a sugar layer), as well as for vegetables or meat. The Utility Burner is ideal for browning meringues, topping off gratin and removing skin from tomatoes or peppers.

- > Adjustable gas dial for controlled application
- > Quick and professional use providing flame temperatures up to 1.300°C / 2.340°F.
- > TÜV approved safety features through safety switch (child resistant locking system).
- > Superior grade gas valve for regular and reliable refilling
- > Easy refilling with commonly available lighter gas
- > Long use with large capacity reservoir of 42ml / 1.4oz. (Propane/Butane) providing approx.60 to 70 minutes flame duration.
- > Flexible application hand held or positioned firmly on its stand base.
